The armory of samurai weapons and the hidden doors for the guards are of particular note, as they shed light on the fact that the castle was under constant threat of attack. **Date: April 13, 2023 12:30 PM**

Visit several historical landmarks associated with Japan's legendary Tokugawa Shogun family, starting at the extraordinary Nagoya Castle. Ieyasu Tokugawa, the first shogun of the Edo period, ordered its construction in 1612. Although destroyed in World War II, the castle was rebuilt to its original splendor. You will see Tokugawa family treasures in the Tokugawa Art Museum, including period furniture, armor and ceramics for tea ceremonies. Many objects of art are from the peaceful Edo period, which lasted from 1603 to 1868. More priceless artifacts await you at Atsuta Shrine, which is said to have been founded in the 3rd century to enshrine a sacred sword. While the sacred sword remains the most valuable item, the last person claiming to see it was a priest from the Edo period, who soon died from a mysterious curse. ### NGO-001 ATSUTA SHRINE & TOYOTA TECHNOLOGY MUSEUM

Duration: 3.75 Hrs Tour Price: \$109.00

Date: April 13, 2023 01:00 PM

Discover two vastly different aspects of Nagoya: its love of history at an ancient shrine and its reverence for innovation at a technology museum. Although the city was largely destroyed during World War II, it has been lovingly reconstructed, including fire-ravaged Atsuta Shrine. It was supposedly founded in the 3rd century when a legendary sacred sword was enshrined here. Over time, the Shinto shrine became a great spiritual center, and today thousands of artifacts are displayed, including holy garments, utensils for deities and ancient documents. In contrast, the Toyota Commemorative Museum of Industry and Technology celebrates industrial innovations. The museum is located in a 1911 factory for automatic looms in honor of Sakichi Toyoda, the inventor of Japan's first power loom and founder of the Toyota Group. The company name was later changed from Toyoda to Toyota in part because it requires only eight brush strokes to write in Japanese, and eight is a lucky number.

- Visit a Shinto shrine supposedly founded in the 3rd century to house a sacred sword.
- Join the pilgrims at the shrine that hope the sword will bring them good luck.
- Browse a museum that celebrates Toyota's industrial innovations.
- Discover the fascinating history of Toyota and the founder's inventions.
- Dress in weather-appropriate clothing.
- Wear flat comfortable walking shoes.
- Bring Japanese yen for shopping.

This tour includes about three hours of moderate walking with steps, cobblestones and gravel surfaces to negotiate. The tour is available to wheelchair guests who have a collapsible wheelchair, are able to make their own way on and off the coach and have an able-bodied companion to assist them. The rebuilt Osaka Castle that you will see dates to 1931 and is magnificent, especially the miles of defensive stone wall that surrounds it. The castle is so iconic and beloved that it became the official symbol of Osaka. Date: April 15, 2023 08:15 AM, 09:30 AM

Get an authentic look at life in Kyoto, past and present, by visiting a pre-World War II machiya townhouse and by browsing a bustling market. Much of Kyoto was spared from bombing during the war, so the wooden residence looks much like it did long ago, especially since it is furnished with period pieces and woven tatami mats. Part of this particular machiya townhouse was once used as a storefront for selling silk for kimonos. If you wish to experience the lifestyle at that time, you will have the opportunity to dress in a traditional kimono and have your picture taken. For a candid glimpse at daily life in Kyoto, you will meander through the Nishiki Market, which has been operating downtown for more than 400 years. It is an excellent place for people-watching. During free time, you might dine there on your own or wander over to Kawaramachi Street, Kyoto's primary shopping area.

- Visit a traditional machiya townhouse built prior to World War II.
- Put on a silk kimono and have a photo taken in the machiya townhouse.
- Enjoy free time in the 400-year-old Nishiki Market and stroll Kyoto's main shopping area.

### OSA-005 HIGHLIGHTS OF KYOTO

**Duration: 7.00 Hrs** **Tour Price: \$249.00**

**Date: April 15, 2023 09:15 AM**

Explore two of Kyoto's marquee attractions: the impressive Golden Pavilion and formidable Nijo Castle, a quintessential example of Momoyama architecture, which flourished 400 years ago. Depart from the pier and drive inland toward Kyoto, an immensely historical city renowned for spectacular architecture, which includes thousands of Buddhist temples and Shinto shrines. Upon arrival, you'll have an exterior visit of Kyoto's most famous landmark, Kinkakuji Temple (Golden Pavilion). Built by Shogun Ashikaga Yoshimitsu as a villa in 1397, the three-story home was converted to a temple by Yoshimitsu's son. The Golden Pavilion follows the Shinden style of the Heian Period by being positioned at the edge of a tranquil pond. The three-story Chinese-influenced Golden Pavilion has delicately curving roofs, with the walls and eaves of the second and third stories covered in shimmering gold leaf. View the exterior of the pavilion and walk through the peaceful gardens, marveling at the mirror reflection of the temple on the still pond. After a stop for lunch at a local Japanese restaurant, you'll head for Nijo Castle where more history awaits. This impressive fortification made of cypress wood was built in 1603 as the residence of the Tokugawa clan. An esteemed UNESCO World Heritage site, the castle is protected by a moat, stone walls, and ingenious nightingale floors, which chirp like a bird when walked upon to alert the guards of potential intruders. Despite its defensive elements, the castle was primarily a home. It's adorned with wooden carvings, artistically painted sliding doors and expansive tatami rooms, decorated in the traditional style at the time. After touring Nijo Castle, you'll return to the pier in Osaka. Please note: This tour includes approximately 2 1/2 hours of moderate walking and there are a significant number of steps to negotiate. The tour is not recommended for wheelchair guests or those with mobility concerns who are cautioned to carefully evaluate their personal level of stamina and ability. Casual, weather appropriate clothing; sun cap; sunglasses, and flat, comfortable walking shoes are recommended. Guests will be required to remove their shoes to enter Nijo castle's Ninomaru Palace. The castle is undergoing a lengthy restoration and some areas may be closed to visitors. Photography and video are not permitted inside Ninomaru Palace. It is suggested that participants bring along local currency for any purchases as U.S. currency is not widely accepted and many merchants cannot take credit cards. The drive between Kyoto and Osaka is approximately 90-minutes and is subject to traffic delays. The order of the sites viewed or visited may vary.

**Duration:** 3.00 Hrs **Tour Price:** \$109.00

**Date:** April 16, 2023 09:00 AM, 01:00 PM

Visit the poignant Hiroshima Peace Memorial Park and its emotionally powerful museum, which contains victims’ mementos and exhibitions that convey the devastation from the atomic bomb blast in 1945. Hiroshima was the world’s first city destroyed by an atomic bomb, and you will find haunting reminders of that event throughout the park. The most iconic is surely the Atomic Bomb Dome, the only structure left standing near the epicenter of the atomic blast. Now a World Heritage site, its skeletal remains stand exactly as they did right after the bomb blast. You will also see the impactful Children’s Peace Monument, which depicts a young girl named Sadako holding a wire crane above her head. Sadako believed if she folded enough origami cranes—the crane symbolizing long life—she would survive the effects of the bomb’s radiation. She died at age 12, and visitors still leave paper cranes in her memory at the foot of the monument.

- Delve into the horrifying effects of the atomic bomb that was dropped on Hiroshima.
- Behold the ruins of the Atomic Bomb Dome, which has become a symbol of Hiroshima.
- Reflect on the devastation from the atomic blast at the memorial Cenotaph.

### HIJ-008 SHUKKEI-EN JAPANESE GARDEN

**Duration: 2.50 Hrs** **Tour Price: \$129.00**

**Date: April 16, 2023 09:00 AM, 12:45 PM**

Stroll through tranquil Shukkei-en Garden in the shadow of Hiroshima Castle as a prelude to visiting sites that memorialize victims of the atomic bomb blast here in 1945. The bomb leveled much of Hiroshima, including centuries-old Shukkei-en Garden. Replanting started almost immediately and today the garden is a revered urban oasis. While meandering along its natural paths, you can expect to find sculpted gardens, arched bridges over serene ponds and a variety of flowering plants, as the garden was designed so that something is always in bloom. Hiroshima Peace Memorial Park encourages reflection, but in a different way. Its attractions are grim reminders of the atomic bomb's devastation. The skeletal Atomic Bomb Dome, one of few buildings left somewhat intact after the blast, has become a symbol of Hiroshima. Other memorials include the Cenotaph, where the names of the victims are inscribed, and the Flame of Peace, which will burn continuously until nuclear weapons are abolished worldwide.

- Revel in the serenity of Shukkei-en Garden, which the atomic bomb blast in 1945 leveled.
- Behold the ruins of the Atomic Bomb Dome, which has become a symbol of Hiroshima.
- Reflect on the devastation from the atomic blast at the memorial Cenotaph.

### HIJ-004 MIYAJIMA

**Duration: 4.25 Hrs** **Tour Price: \$189.00**

**Date: April 16, 2023 09:15 AM**

Take the ferry to Miyajima, a small forested island known for its stunning natural beauty and ancient shrines. Upon arriving, you will first notice the giant red torii gate that rises up out of the ocean as if it were floating. The revered primary shrine is also built over the water and together these iconic attractions have been declared a UNESCO World Heritage site, as they illustrate the Japanese concept of scenic beauty, in which nature and human creativity harmoniously combine. At high tide, the gate and the 12th-century shrine seem to be floating on the water. To alleviate friction from the rising tides and more severe water conditions, the shrine's wooden floors have spaces between the planks and were constructed without metal nails that would restrict the planks from moving with the tides.

- Ride the ferry over to Miyajima, a sacred island since ancient times.
- Marvel at how the shrine and torii gate here seem to float in the sea at high tide.
- Appreciate how the shrine fulfills the Japanese concept of scenic beauty.
- Discover the ingenuity behind the construction of the shrine, a World Heritage site.
- Dress in weather-appropriate clothing.
- Wear flat comfortable walking shoes.

This tour includes nearly three hours of walking with some steps. Originally built in the 14th century, Haedong Yonggungsa is revered for its pagoda and Buddhist sanctum inside a cave. The 108 steps down to the temple represent the 108 anguishes in Buddhist life. For a glimpse into South Korea's modern architecture, you will visit the glass-and-steel domed APEC House. This airy, light-filled building was designed to represent the spirit of openness and cooperation, as it is used for meetings and international summits. You will then browse Gukje Market, the country's largest traditional market, and Jagalchi Fish Market, South Korea's largest seafood market. Both display an extraordinary amount of merchandise.

In all likelihood, you will see the monks praying and chanting in Buddha Hall. A glimpse into two of Busan's most bustling markets follows. The designers of the modern APEC House believe its seaside location provides a calm setting for the meetings and international summits that are held there. Natural light bathes the airy interior, adding to the soothing ambiance. The sea's bounty will be evident as you browse the Jagalchi Fish Market, South Korea's largest seafood market. Each morning, fresh fish and every other imaginable marine creature is delivered, iced and displayed in the seemingly endless shops and stalls. Other seafood is kept live in water tanks. Discover the geological wonders in the Ryugado Caves and then explore Kochi's iconic early 17th-century castle. Artifacts and earthenware found in the caves indicate that they were inhabited about 2,000 years ago. Today, about 100 species of animals live inside, including bats, shrimp and crabs. The Japanese government has also recognized Kochi Castle for its cultural importance, in part because its keep and palace are original, despite being damaged from fires and invasions. Sometimes called the "Hawk Castle" for its curved tile roof, Kochi Castle also features a large Otemon Gate with a watch room where guards could monitor those entering the castle. Kochi is one of the few castles in Japan with spikes embedded in the walls to deter ninjas.

- Observe the unusual geological formations within the Ryugado Caves.
- Learn about the people that inhabited the caves 2,000 years ago.
- Explore Kochi Castle, the seat of the powerful Yamauchi lords during the Edo Period.
- Appreciate the historical significance of the castle's original 17th-century keep and palace.
- Dress in weather-appropriate clothing.

This tour is not available to wheelchair guests or those with walking or mobility concerns and is not recommended for guests that suffer from claustrophobia. Photography is prohibited in the cave areas inhabited by bats. Flash photography and the use of tripods is prohibited inside the castle. Guests might be asked to remove their shoes and wear provided slippers in some areas of the castle.

### KZC-006 RYUGADO CAVES

**Duration: 3.25 Hrs**   **Tour Price: \$159.00**

**Date: April 20, 2023 08:45 AM**

Walk through one of Japan's largest stalactite caves, a wondrous setting that has been designated a national natural monument. The caves are located within Mount Sampo and are estimated to be at least 175 million years old. While meandering along the caves' narrow paths and steel platforms, you will behold an abundance of unusual formations, many of them named for figures from Japanese mythology. Colored lights illuminate the formations to add drama. About 100 different species of animals inhabit the caves, including marine creatures such as shrimp and crabs that can be seen in the streams that flow throughout the caves. Humans lived here about 2,000 years ago, a fact determined when extremely rare earthenware and charcoal furnaces were uncovered near the caves' entrance. Perhaps the most remarkable relic is God's Vessel, an earthenware vessel encased in a stalactite.

- Observe the unusual geological formations within the Ryugado Caves.
- Learn about the people that inhabited the caves 2,000 years ago.
- Look for marine creatures in the streams and waterfalls throughout the caves.
- Dress in weather-appropriate clothing.
- Bring a rain jacket, as water may drip from the cave ceiling.
