KRA-001 ECO-POWERED TUK-TUK CITY TOUR

Duration: 1.00 Hrs **Price:** \$49.00

OVERVIEW

Bon Bini na Bonaire! Enjoy a brisk round-the-town welcome to Kralendijk from the comfort of an electric-powered Tuk-Tuk, enjoying the open air and sights. On this island, the three-wheeled mini-taxis don't make the "tuk tuk" sound of the famous Thai version – because this Caribbean version is electric, eco-friendly and noiseless. All the better for the scenic environment you'll be touring, and to hear the enlightening commentary by your local driver/guide. One of the top sights you'll encounter in this orientation ride is heavily fortified Fort Orange, built in 1639 for attacks that never came. It still has its cannons, just in case. Another highlight is the delightful Dutch architecture widespread in this island capital city whose name means "coral dike" in that language. You'll also see Bonaire's largest church and may have a chance to view the saltwater flats where flamingoes sometimes congregate in the shallows to scoop up brine shrimp with their upside-down beaks and backwards knees. That diet is what gives them their trademark rosy-orange hue. Once the tuk-tukking is done, you'll be dropped back at the pier.

HIGHLIGHTS

- Hop aboard an eco-friendly electric Tuk-Tuk mini-taxi for an orientation spin around Kralendijk.
- Enjoy your equally-friendly driver/guide's commentary about the sights you're seeing.
- See Fort Orange and its cannons, Bonaire's largest church and more.

HELPFUL HINTS

- Wear light, weather-appropriate clothing.
- Flat, comfortable shoes are recommended.
- Bring a hat, sunglasses and sunscreen.

PLEASE NOTE

This tour is mostly panoramic with limited optional walking at the stops. The tour is not available to wheelchair guests and those with mobility concerns are cautioned only to participate to the extent of their personal ability. The tour sequence may vary. Maximum weight per participant is 260lbs.

Head into the arid wilds of the Washikemba reserve on an All-Terrain Vehicle and experience a hauntingly beautiful landscape. A brief coach ride brings you to the pick-up point, where you'll get your safety checkout before taking off eastward toward Washikemba. Four-wheeling your way into this rugged region, you'll reach areas most normal vehicles can't – letting you encounter Bonaire in its most natural, undisturbed state. You might even see wild donkeys and goats, and iguanas basking in the sun. At the amazingly remote Spelonk Lighthouse, marking the island's easternmost point, you can't help but notice that the only other way here is by sketchy footpath. And it's sure to be an inspiring moment when you also realize that the only sound you can hear here is surf crashing on a rocky shore. Once you've absorbed that awhile, it's on to one of Bonaire's many caves, some still bearing inscriptions from Arawak Indians who lived here in pre-Columbian days. Today's cave residents are likely to be bats, clinging to the roof in great numbers as they wait for dusk to fly off in search of tasty insects. It's a good thing your dinner plans are elsewhere.

HIGHLIGHTS

- Experience Bonaire's arid landscape in its natural state in the Washikemba reserve.
- Make your way there by All-Terrain Vehicle, which can take you where other vehicles can't.
- Find yourself at a far-off lighthouse where the only sound is the ocean, or maybe a wild goat.
- Visit a cave where ancients might once have lived, but now only bats. Lots and lots of bats.
- See other wild places, including a remote settlement at the head of the reserve's sea lagoon.

HELPFUL HINTS

- Flat, sturdy closed-toe shoes are required.
- Bring a hat, sunglasses and sunscreen.

The local operator may require guests to sign a liability waiver before taking part in the tour. Pricing is per person, not per vehicle.

KRA-004 4x4 ADVENTURE TO BONAIRE'S EAST COAST

Date: Mar 12, 2023 Time: 08:30 AM
Duration: 3.00 Hrs Price: \$79.00

OVERVIEW

Travel off-road in a 4x4 Land Rover to explore Bonaire's remote eastern shore, a land of giant cacti, plentiful wildlife and stunning natural beauty. You'll head out from the pier and drive through Kralendijk. As you get further east, you'll notice the land getting more rugged. Before long, the paved highway will be in the rearview as you enter trackless, arid countryside. This sparsely populated part of the island is both beautiful and rugged. You're usually more likely to encounter wild donkeys, Caribbean parakeets, yellow-shouldered parrots or prehistoric-looking iguanas than humans around here. One exception is when you reach Sorobon Beach, catering to windsurfers who can't resist the waves kicked up by the steady offshore breezes. After a pause, you'll press on to pass one of Bonaire's five lighthouses then clustered stone huts that once housed slaves who worked in the surrounding salt flats until slavery was brought to an end here in 1863. These saltwater shallows are a known place where Bonaire's flamingoes gather to feed, using their upside-down beaks to scoop up brine shrimp – the unique diet responsible for their trademark rosy-orange hue. Perhaps they'll be hungry when you're passing through.

HIGHLIGHTS

- Explore an arid, undeveloped part of Bonaire where the scenery is all about rugged beauty.
- Be on the lookout for wild donkeys, chattering parrots, and iguanas lounging in the sun.
- Stop at a faraway, breeze-swept beach where the waves are irresistible to windsurfers.
- Visit salt flats where flamingoes often congregate to feed, and stand around on one leg.

Date: Mar 12, 2023 Time: 08:30 AM
Duration: 3.00 Hrs Price: \$89.00

OVERVIEW

Take to the sea aboard a beautiful catamaran and sail into pristine Bonaire Marine Park for a snorkel or simply to enjoy the scenery. Your vessel is the Mushi Mushi, a sleek 40-foot sailing cat with plenty of open deck for sunbathing. While you're welcome to assist the crew as they set and trim the sails, your only real job for the next few hours is to either relax on board, or ease into the water for some undersea sightseeing. As one of the first Caribbean areas to ban reef-harming activities decades ago, Bonaire Marine Park teems with underwater life. Spectacular stands of elkhorn and staghorn coral support a diversity of fish and other marine creatures. If you do opt to jump in and investigate the goings-on, expect to see longsnout seahorses and a full spectrum of colorful reef fish like wrasses, grunts, goatfish, parrotfish and tangs. Sea turtles also thrive here in the protected park waters. This optional snorkeling is unguided, but a crew member will be keeping a watchful eye out from the deck. After about an hour at anchor, the sails will be raised again for the voyage back to harbor, with an open bar en route.

HIGHLIGHTS

- Skim over clear Caribbean waters aboard a sleek and roomy sailing cat named Mushi Mushi.
- Cross into the long-protected Bonaire Marine Park and moor for a blissful while.
- Choose your pleasure: relaxing and sunbathing on board or investigating the reef by snorkel.
- Under the surface, encounter a world of lush corals, sea turtles, colorful fish and invertebrates.
- Toast the wonders of the sea during the open-bar return sail to Kralendijk.

OVERVIEW

Sail a magnificent Siamese junk to the unblemished oasis Klein Bonaire, an uninhabited islet known for its pristine beach and exceptional snorkeling. A Zodiac from the pier will tender you out to the Samur, an authentic 56-foot Siamese junk hand-built in Thailand. As the Samur's traditional red sails catch the wind and she slides out to sea, it's easy to imagine you're being transported back in time. The character of your destination only amplifies this sensation. Afloat in gin-clear waters and as deserted as Robinson Crusoe's island, Klein Bonaire is just west of Kralendijk – and a world away. En route, your captain will elaborate on what you can expect to find on the island and at Ebo's Reef just off its shore. The beach here is blissfully uncluttered – no snack stands, chaises or jetski rental operations – and the snorkeling reef presents a colorful array of marine life. You might see parrotfish, angelfish, sea horses and turtles, all gracefully swimming through their world, undisturbed by your presence. Relax in whatever way you please; there's no set schedule. After about an hour you'll tender back to the Samur to enjoy tropical fruits and rum punch on the return sail.

- Enjoy two superb sensations: riding the wind on a classic sailing ship and playing on a deserted island.
- Tender out to an authentic Siamese junk hand-built in Thailand with beautiful wood-carved details.
- Set sail for Kleine Bonaire, an unspoiled natural island half a mile and a million years from Kralendijk.
- On the island, spend your time along its gorgeous shores or snorkeling its pristine waters and reef.

STL-GG1 SUSTAINABLE AQUAPONICS FARMING & PITONS

Date: Mar 14, 2023 Time: 08:30 AM
Duration: 6.00 Hrs Price: \$129.00

OVERVIEW

Visit a farming enterprise that uses sustainable aquaponics to grow fresh produce without harming the environment. On the way to the greenhouse farm, you will pause for photos of the Pitons, St. Lucia's most iconic attraction. These two volcanic spires are so bio-diverse that UNESCO declared them a World Heritage site. As you will discover at Green Haven in the village of Choiseul, farming through aquaponics is eco-friendly and entirely sustainable, so it doesn't negatively affect the environment. While touring the greenhouses with one of the owners, you will gain an understanding of aquaponics, a combination of aquaculture—or raising fish—and hydroponics, in which plants grow in water rather than in soil. In essence, the waste from hundreds of tilapia fish provides nutrients for the plants in a closed system that uses minimal recycled water. It is a wonderfully efficient process with the end result being organic lettuce, tomatoes, cucumbers and peppers that grow year-round. At the end of the tour you will enjoy a farm to table lunch in their on-site café before returning back to the ship.

Wellness Tour

Enjoy incredible underwater views at depths up to 150 feet from the comfort of the Atlantis III submarine. A scenic ferry ride will take you to the submarine, where you will settle in for an adventurous journey into areas that only scuba divers usually see. The submarine's co-pilot will provide narration throughout the cruise and point out the most fascinating marine life. You can expect to view an ever-changing, nonstop parade of tropical fish darting in and out of the coral reefs and gracefully swimming by the submarine. Brightly colored queen angelfish, honeycomb cowfish, glasseye snappers and black durgons are commonly spotted. You might even catch sight of southern stingrays, moray eels and hawksbill turtles. You will also cruise past a shipwreck that adds yet another dimension to the experience.

- Settle into a seat in front of a large viewing port in the air-conditioned submarine.
- Observe an endless array of marine life as the submarine dives to depths of up to 150 feet.

KGN-001 VERMONT NATURE TRAIL HIKE

Date: Mar 18, 2023 Time: 07:30 AM, 12:30 PM
Duration: 4.00 Hrs Price: \$119.00

OVERVIEW

Hike through a protected rainforest with a guide that will point out exotic flora and fauna that may include the endangered St. Vincent Parrot, a species endemic to the island. Upon reaching the enormous St. Vincent Parrot Reserve, you will hike the Vermont Nature Trail, which winds through the lush rainforest. The scenery will be spectacular throughout the journey, but the real draw will be the chance to see the rare St. Vincent Parrot. Endangered because of loss of habitat and the illegal pet trade, this large parrot with multi-colored plumage is a favorite of birdwatchers. There is a good chance of seeing one or at least hearing its call. Similarly, the Whistling Warbler is another bird endemic to St. Vincent and often observed in the reserve. The boldly patterned, black-and-white warbler is usually seen happily flitting about the undergrowth. It too has a distinctive call that rises steadily in volume before ending emphatically.

HIGHLIGHTS

- Sample freshly prepared conch that the guides have just plucked from the sea.

HELPFUL HINTS

- Dress in weather-appropriate layered clothing.

- Wear flat comfortable walking shoes with closed toes.

PLEASE NOTE

This tour includes hiking about one mile over mostly uphill and natural terrain. There are footholds, but they are inconsistent in height and width. The trail may be slippery when wet. The tour is not available to wheelchair guests or those with mobility concerns. Participants should be in good physical condition. Wildlife sightings are common, but not guaranteed.

KGN-002 BEST OF ST. VINCENT

Date: Mar 18, 2023 Time: 07:45 AM, 12:45 PM
Duration: 3.25 Hrs Price: \$99.00

OVERVIEW

Trace the island's history at Fort Charlotte and then behold its natural beauty at a botanical garden. The British started construction on the fort in 1763, building it on a ridge that offers an unobstructed view of Kingstown and beyond. Interestingly, the cannons point inland over the moat, as the fort was built to protect the English from the indigenous Indians and their French allies, who were more inclined to attack from land than the sea. Nearby, you will find the island's botanical gardens, which are among the oldest in the Western Hemisphere, having been established in 1765. An oasis of serenity, the gardens contain countless species including rare ones such as a breadfruit tree that is the third generation of one donated by the infamous Captain Bligh of the HMS Bounty. Continuing on, you will venture through the Mesopotamia Valley, where much of St. Vincent's fruits, vegetables and spices are grown.

HIGHLIGHTS

- Visit Fort Charlotte dating back to 1763 and offering views over Kingstown.
- View an oasis of serenity at the Botanical gardens
- Enjoy a scenic drive through the Mesopotamia Valley

HELPFUL HINTS

- Dress in weather-appropriate clothing.
- Wear flat comfortable walking shoes.

PLEASE NOTE

This tour includes about an hour of easy to moderate walking with some slopes to negotiate. The tour is not available to wheelchair guests and those with mobility concerns should evaluate their stamina and ability before joining the tour. Due to a weight restriction on the drawbridge at Fort Charlotte, you will travel there by minibus. Following this stop, you will travel by motor coach for the remainder of the tour.

KGN-003 GARDENS OF ST. VINCENT

Date: Mar 18, 2023 Time: 08:00 AM
Duration: 4.25 Hrs Price: \$109.00

OVERVIEW

Meander down the lushly landscaped paths of two vastly different gardens: Kingstown's centuries-old botanical gardens and the more mountainous Montreal Gardens. Established in 1765, the botanical gardens are among the oldest in the Western Hemisphere. They contain colorful torch lilies, brain fruit palms, towering mahoganies and flowering Soufrieres, the national tree of St. Vincent, which isn't found anywhere else but on the island. A different sort of garden awaits you in the mountains above the fertile Mesopotamia Valley. A former plantation, Montreal Gardens is blessed with rich volcanic soil and a lovely terraced terrain. It is here that Welsh-born landscape designer Timothy Vaughn renovated 7½ acres of land and turned it into a spectacular collection of gardens, each with its own design and personality. There is a formal garden, a color garden accented with splashes of brilliant flowers and a rainforest garden with a mountain stream that enhances its serenity.

Duration: 6.50 Hrs Price: \$179.00

OVERVIEW

Sail to the neighboring island of Bequia and enjoy free time before snorkeling and then relax on the beach. The yachting paradise of Bequia measures just seven square miles, all of it beautiful, as you will discover after pulling into Port Elizabeth on a catamaran. Most of the boutiques are along Front Street, so you won't have far to walk. Sailing on, you will soon arrive at Moonhole, a cluster of quirky stone homes built under a natural arch in a coastal cliff. Few of the homes have windows or doors, some are partially constructed with whalebones, and all of them use rainwater collected in cisterns. You will anchor just offshore, leaving plenty of time to admire the private compound and snorkel off shore. Following lunch aboard, you will sail to Princess Margaret Beach, a beautiful ribbon of golden sand named for England's Princess Margaret, who once swam there.

- Marvel at the strange "off-the-grid" stone homes built into the cliffs on Bequia.

Date: Mar 18, 2023 Time: 09:00 AM, 12:00 PM

Duration: 2.00 Hrs Price: \$89.00

OVERVIEW

Drive through the bustling capital of Kingstown and the surrounding countryside, taking in the scenery and historical sights. Known as the “City of Arches” for its volcanic stone archways, Kingstown was first settled by the French. In the following decades, the island was ceded to the British, who built Fort Charlotte on a high bluff to protect Kingstown primarily from land attacks by the French and Caribs. Many of the landmarks in town are churches, and you will enjoy an exterior view of three of the most impressive ones. St. George’s Anglican Church is known for its lovely stained-glass windows. St. Mary’s Catholic Cathedral of the Assumption was built in stages and its eclectic architecture reflects the additions. Freed slaves help build Kingstown Methodist Church, a pastel-colored brick building. Leaving Kingstown behind, you will drive along the island’s windward side, admiring the dramatic scenery, which includes black-sand beaches, rocky bluffs and coastal villages.

HIGHLIGHTS

- Pass many of Kingstown’s most historical landmarks
- View three churches, including one with stained-glass windows that Queen Victoria donated.
- Observe another church that freed slaves constructed.
- Behold the beautiful shoreline and coastal villages along the island’s windward side.
- Sample coconut water and coconut meat or “jelly,” a staple on the island.

- Dress in weather-appropriate clothing.
- Wear flat comfortable walking shoes.

Those with mobility concerns should evaluate their stamina and ability before joining the tour.
