VLC-022 TRADITIONAL VALENICAN PAELLA

Date: May 09, 2025 Time: 10:00 AM
Duration: 4.00 Hrs Price: \$279.00

OVERVIEW

Cruise across a freshwater lake in Albufera Natural Park and dine on traditional paella in a centuries-old farmhouse nearby. As you cruise across this largest lake in Spain, you will see an abundance of water birds and seemingly endless fields of rice, one of the key ingredients in paella. A once-humble dish, paella originated in the area in the 15th or 16th century and has become synonymous with Valencia. Traditional versions are made with rabbit, chicken, snails and a variety of vegetables such as butter beans and artichokes. Smoked paprika and saffron are commonly used as spices. One of the favorite parts is the socarrat, which is the caramelized crust that forms at the bottom of the paella pan as the rice simmers undisturbed in the broth. The version of paella that you will be served at the restaurant La Genuina – which appropriately means “The Genuine” – will be as authentic as it gets.

Duration: 3.00 Hrs Price: \$109.00

OVERVIEW

Join a biologist for an enlightening walk and boat cruise through Albufera National Park to see how its former rice fields were transformed into a natural reserve. Decades of harmful agricultural practices deteriorated the water quality and threatened the wildlife within the area that is now the Tancat de la Pipa reserve. Once the rice fields were converted to freshwater wetlands, the wildlife—particularly water birds—returned in great numbers. The biologist will describe the transformative process and how the reserve's spring-fed waters are naturally filtered. A leisurely cruise on a boat will provide you with a different perspective of the wetlands and the chance to observe the flourishing biodiversity. You may spot black-winged stilts, crested coots, little-ringed plovers and countless migratory birds such as bee-eaters. Marsh harriers are also abundant. These raptors can be easily identified in the air by their long tails and wings, which they typically hold in a shallow "V."

You will then join a hands-on workshop and learn the basics of preparing this once-humble dish from scratch. Duration: 8.50 Hrs Price: \$179.00

Emperor Hadrian built the aqueduct that supplied spring water from towering Zaghuan Mountain to Carthage, and you will view the remains of this architectural wonder that stretched for more than 80 miles. It is one of the best-preserved Roman aqueducts among the hundreds built in Europe and North Africa. OVERVIEW

Surrender to the captivating highlights of Messina, a Sicilian city that nearly kisses the tip of Italy's boot. You'll learn that over the centuries Messina has been coveted for its wonderful natural harbor and strategic location on the northeasternmost corner of Sicily, the closest point to mainland Italy. From atop a scenic promontory, take in superb vistas of the surrounding land, which has lured visitors and conquerors for centuries. Visit the city's sublime cathedral, where, according to legend, England's king Richard the Lionheart worshipped in 1190 at the beginning of the Third Crusade. You'll immediately notice one of the cathedral's highlights, the world's largest and most complex astronomical clock. Proceeding along Via Garibaldi, see the mosque-like 12th-century Church of the Santissima Annunziata dei Catalani and the ornate Teatro Vittorio Emanuele, which was originally built in 1852. Despite the destruction wreaked by centuries of earthquakes and Allied bombing during WWII, you'll appreciate that fortune saw fit to spare numerous fine buildings of historical importance for you to enjoy today.

MNA-015 MAMERTINO PATH WINE EXPERIENCE

Date: May 16, 2025 Time: 10:00 AM
Duration: 5.00 Hrs Price: \$259.00

OVERVIEW

OVERVIEW Gain insight into the foods and wines produced around the inland town of Santa Lucia del Mela while visiting a winery and farm. The wines are fermented in terracotta amphorae, much like it was done thousands of years ago. Unlike wooden or steel vessels, terracotta provides superior insulation, removes acidity from the wine and allows for better oxygen exchange. One of the wines that has been revitalized in this area – a mamertino – was a favorite of Julius Caesar and so beloved that the Roman scholar Pliny described it in his book Natural History. After touring the wine cellar and dining on Sicilian cuisine thoughtfully paired with wines, you will follow a path through the vineyards and olive groves to a nearby farm. Although dozens of traditional cheeses are made in Sicily, this farm produces a rare one that uses donkey milk. The dairy farmer will describe the process and offer a tasting.

HIGHLIGHTS

- Tour a winery known for its mamertino, a wine that Julius Caesar adored.
- Walk through the vineyards, tour the cellar and enjoy a wine tasting with lunch.
- Visit a farm that produces an unusual cheese with donkey milk.

HELPFUL HINTS

- Dress in weather-appropriate clothing.
- Wear flat comfortable walking shoes.

PLEASE NOTE

PLEASE NOTE Coaches do not have a lift and entering and exiting must be done via stairs. This tour includes approximately 3 hours of walking and standing over even, and uneven surfaces. The sights on this tour are not wheelchair accessible; therefore, it is unavailable to wheelchair guests. Any allergies must be noted when booking the tour. The vineyard and cellar include surfaces with hills, sand and grass. As this excursion involves standing and walking for periods of time of approximately 3 hours, those guests with mobility concerns are cautioned to evaluate their personal level of ability and stamina. Casual, weather-appropriate clothing and comfortable, flat walking shoes are suggested.

Date: May 17, 2025 Time: 08:00 AM
Duration: 3.50 Hrs Price: \$169.00

OVERVIEW

Delve into the remains of Herculaneum, a UNESCO World Heritage site that, much like Pompeii, fell victim to Mount Vesuvius' reverberating AD 79 eruption, on this engaging tour that also takes you to a local craft center. You'll learn that Herculaneum's fate didn't quite mirror Pompeii's, since Pompeii was buried in hot volcanic ash that burned everything combustible, whereas Herculaneum was covered by scorching mud that serendipitously preserved the village and prevented looting throughout the centuries. In addition, you'll hear many of the citizens had already departed Herculaneum due to an earthquake that preceded the volcanic eruption by several years, so this city has none of the eerie body casts seen in Pompeii. During your guided tour, you might see upper-class Roman villas overlooking the sea, original statuary, inlaid marble floors, intricate wall mosaics and even carbonized wood artifacts that survived the horrific devastation, all of which provide an astonishing snapshot of life nearly 2,000 years ago. Cap off your illuminating outing with a visit to a craft center, proof that even Vesuvius' destructive outburst couldn't prevent this vibrant corner of Italy from flourishing.

HIGHLIGHTS

- Tour the eye-opening ruins of Roman-era Herculaneum, a UNESCO World Heritage site.
- See nearly intact buildings interred for centuries by a flow of scalding mud triggered by Mount Vesuvius' AD 79 eruption.
- Examine statues, inlaid marble floors, ornate mosaics and wooden items carbonized by the extreme heat.

Duration: 5.00 Hrs Price: \$159.00

OVERVIEW

Become immersed in the world of pasta through a behind-the-scenes tour of one of Italy's oldest pasta factories, followed by a delightful pasta lunch. The venue for this enlightening experience will be Gragnano, an ancient city where durum wheat and semolina have been cultivated for thousands of years. It also has the ideal climate for air-drying pasta, a practice that is still observed to ensure quality. In fact, to achieve its Protected Designation of Origin status, Gragnano pasta must dry gradually for as many as four days and be extruded through a bronze die that imparts a rough texture that helps the pasta sauce cling to the noodle. The results are well worth the effort as you will discover while savoring a lunch of Gragnano pasta and locally made accompaniments.
