BAC-003 A TECHNOLOGY THAT CHANGED THE WORLD

Date: Sep 27, 2025 Time: 02:15 PM
Duration: 3.25 Hrs Price: \$129.00

OVERVIEW

Take a behind-the-scenes tour of a massive hydroelectric dam that was built in the 1960s with cutting-edge technology that revolutionized the transmission of electricity. For an overview of the Jean-Lesage Generating Station, formerly known as the Manic-2, you will watch a fascinating video that shows how the generating station was constructed. It also explains the ground-breaking technology that drives the eight turbines, each of which weighs as much as 100 elephants. Building the towering dam and the turbines within it was an enormous undertaking because the structure holds back water from two large rivers. Incredibly, the water that rushes through the spillway is double the volume that roars off Niagara Falls. It creates enough hydroelectric power to supply electricity to a city of 250,000 people – that's more than 10 times the size of Baie Comeau. Afterwards, you will drop by Baie Comeau Manor for tea and a snack or a beer and wine tasting if you prefer.

HIGHLIGHTS

- Enjoy an eye-opening insider's tour of an enormous dam and generating station.

OVERVIEW

Watch a performance that celebrates the Celtic musical heritage of Cape Breton and the fiddle, its most iconic instrument. Although steel and coal production once drove the economy, Sydney is now known as a hotbed of Celtic music. A 50-foot-high Celtic fiddle at the cruise terminal honors that history and will provide an ideal setting for a piper to play a tune that will introduce you to the island's iconic music. After taking a seat in the pavilion's Kavanaugh Room, you will see a lengthier performance of traditional music that reflects the island's Scottish, Irish and Acadian influences. Cape Breton supposedly has more fiddlers per capita than anywhere else in the world, so it is only fitting that a fiddle will be featured. The performance will also include singers and a unique form of step-dancing in which the movement of the upper body is more limited than in other forms of step-dancing. Refreshments will be served during the performance—be sure not to miss the traditional Cape Breton oatcakes.

HIGHLIGHTS

- Listen to a piper play a Celtic tune at the 50-foot-high fiddle statue at the cruise terminal.
- Watch a performance of traditional Celtic music inside a pavilion at the cruise terminal.
- Be awed by the talent of the accomplished fiddle players, singers and step-dancers.

HELPFUL HINTS

- Dress in weather-appropriate clothing.
- Wear flat comfortable walking shoes.

PLEASE NOTE

It is available to guests who utilize wheelchairs or scooters (ramps and elevator in the building). The performance venue is only a short walk from the cruise terminal.

YYT-006 SAINT JOHN HIGHLIGHTS

Date: Oct 03, 2025 Time: 03:00 PM
Duration: 2.50 Hrs Price: \$119.00

OVERVIEW

Traveling from the pier by motor coach, you will drive to the Old City Market, which was constructed in 1876 and narrowly escaped the devastating Fire of 1877. Canada's oldest continuously operating farmer's market, the Old City Market is filled with locally grown produce, bakery goods, crafts, and other Canadian merchandise. Your adventure will then take you through the historical neighborhoods rich in shipbuilding and lumber industries as you make your way to Fallsview Park and the Reversing Falls Rapids. This natural phenomenon is caused by the Bay of Fundy's tide, which rises more than 28 feet in the day. When the tide is low, the river empties into the bay. As the tide rises, the water begins to churn in a series of powerful rapids and whirlpools until the river flows backwards. It's a strange sight that lasts for hours, until the tide goes out and the river height becomes higher than that in the bay. Once you have experienced the magnificent power of the Reversing Falls Rapids, enjoy a short drive to Place Fort La Tour, a National Historic Site of Canada, sitting at the mouth of the Saint John River. Learn the story of Charles de Saint-Etienne de La Tour, how the Fort became one of the earliest fur trade points between the French and the indigenous people, and the tragic story of his wife's defense of the Fort in his absence while under siege from his rival. Lady La Tour is a true Canadian heroine. On this section of your tour, we invite you to travel back in time with us to the 1600's and experience life at that time, complete with Palisade, Bastion, and Blacksmith Forge, all nestled amongst replica fort buildings.

PDX-018 PEAKS ISLAND LOBSTER BAKE

Date: Oct 04, 2025 Time: 01:45 PM
Duration: 3.00 Hrs Price: \$289.00

OVERVIEW

Cruise to Peaks Island for a traditional Maine lobster bake with all sorts of delectable side dishes. A ferry will take you across Casco Bay to the island, which lies just three miles offshore. On the way over, you will pass the 19th-century Bug Light Lighthouse, an elegant cast-iron beacon with Corinthian columns. First settled by the Abnaki Indians, Peaks Island didn't start to flourish until the late 1890s, when Portland's population grew, and an amusement park went up. It is hard to imagine, but Peaks Island was once called the "Coney Island of Maine." Today, the population is about 1,000, and the lifestyle is low-key and quintessentially New England. Upon arriving, you will walk to the nearby Inn on Peaks Island, a seasonal lodging that features outstanding views of the sea and classic Maine cuisine. There, you will enjoy a traditional lobster bake with New England clam chowder, steamed mussels and sides such as corn on the cob.

PDX-013 EXPLORE THE COAST BY BIKE & ON FOOT

Date: Oct 04, 2025 Time: 02:00 PM
Duration: 3.00 Hrs Price: \$179.00

OVERVIEW

Bicycle along a popular coastal promenade to the state park on forested Mackworth Island, where you will hike along a picturesque loop trail before bicycling back to Portland. Meeting at the pier, you'll receive a safety briefing and helmet and then begin your biking adventure. Riding a bicycle allows you a wonderful up-close view of the area. As you pedal along the tree-lined Eastern Promenade, you can expect to see other bikers, joggers and walkers enjoying this waterfront trail. The promenade was built along a former rail corridor and offers spectacular views of Casco Bay. Every so often, you will pause for the guide to elaborate on the significance of landmarks like Fort Gorges, which perches on uninhabited Hog Island. The fort wasn't finished until the end of the Civil War, by which time weaponry had changed making it obsolete. Later, you will learn fascinating facts about Bug Lighthouse, which was once just a wooden tower, and the Casco Bay Islands, also known as the Calendar Islands, because there are supposedly 365 of them. Upon reaching Mackworth Island, you will hop off your bike for a one-mile hike along a trail that encircles the island. In 1946 Maine's governor set aside the island "as a sanctuary for wild beasts and birds," and in fact, buried his own dogs here. During your hike you may also spot seagulls and ospreys. After leaving Mackworth Island, you will pedal back to the pier.

HIGHLIGHTS

- Bicycle along a popular coastal promenade to the state park on forested Mackworth Island
- Visit many landmarks as you pedal along the tree-lined Eastern Promenade.
