OVERVIEW

Try your luck fishing for halibut, a species of flatfish that gets massive and feeds voraciously in the summer. You will head out to the fishing grounds in a group of no more than six guests, which ensures that the captain and crew can provide exceptional personal attention to increase your chances of catching one of these behemoths. Once the boat anchors, you will fish with a vertical rigging to reach the bottom of the ocean floor where halibut live. The larger fish are usually females and can grow up to eight feet in length and five feet in width, which is why they are often called “barn doors.” Imagine what a thrill it would be to reel in one of these lunkers. If you catch one, you will notice that it has smooth scales and a light-colored bottom and a darker top, which acts as a natural camouflage that mimics the hues of the ocean floor and water.

HIGHLIGHTS

- Fish for halibut on a private boat with just five other guest's maximum.
- Follow the crew's advice and tips to increase your chance of catching a huge halibut.
- Ship your catch home fully processed if you want to eat it later.

Duration: 3.00 Hrs Price: \$329.00

OVERVIEW

Cruise into the pristine waters off Victoria with whale spotters that will point out orcas and other marine creatures. After settling into the vessel, which features viewing areas inside and topside, you will head into the surrounding waters. Orcas are abundant here, as they come to feed primarily on Chinook salmon. Orcas are better known as killer whales, although they are actually members of the dolphin family. They typically travel in pods, which sometimes include as many as 80 orcas. It's quite the sight to watch them zipping about as they use echolocation to locate their prey. To enhance the experience, the ship's engine will be cut off when orcas approach. Orcas are easy to identify because of their black-and-white markings and sleek appearance. Depending on the day, you may also spot minke whales, humpback whales and elephant seals. Birds are also abundant, so keep an eye out for osprey, bald eagles and peregrine falcons.

HIGHLIGHTS

- Spend hours cruising waters teeming with orcas and other marine animals.
