**SRT-018 THE ANCIENT ROMAN RIVIERA: HERCULANEUM**

**Date: Oct 14, 2026 Time: 08:30 AM**  
**Duration: 5.00 Hrs Price: \$139.00**

OVERVIEW

Delve into the remains of Herculaneum, a UNESCO World Heritage site that, much like Pompeii, fell victim to Mount Vesuvius' reverberating AD 79 eruption, on this engaging tour that also takes you to a local craft center. Enjoy a scenic journey by coach to ill-fated Herculaneum, whose fate

didn't quite mirror Pompeii's, since Pompeii was buried in hot volcanic ash that burned everything combustible, whereas Herculaneum was covered by scorching mud that serendipitously preserved the village and prevented looting throughout the centuries. In addition, you'll hear many of the citizens had already departed Herculaneum due to an earthquake that preceded the volcanic eruption by several years, so this city has none of the eerie body casts seen in Pompeii. During your guided tour, you might see upper-class Roman villas overlooking the sea, original statuary, inlaid marble floors, intricate wall mosaics and even carbonized wood artifacts that survived the horrific devastation, all of which provide an astonishing snapshot of life nearly 2,000 years ago. Cap off your illuminating outing with a visit to a woodworking center, proof that even Vesuvius' destructive outburst couldn't prevent this vibrant corner of Italy from flourishing.

HIGHLIGHTS

- Tour the eye-opening ruins of Roman-era Herculaneum, a UNESCO World Heritage site.
- See nearly intact buildings interred for centuries by a flow of scalding mud triggered by Mount Vesuvius' AD 79 eruption.
- Examine statues, inlaid marble floors, ornate mosaics and wooden items carbonized by the extreme heat.
- Shop for local woodworking at a workshop in Sorrento specializing in this age-old artform.

HELPFUL HINTS

- Wear casual, weather-appropriate clothing and comfortable walking shoes.
- Bring a hat, sunglasses and sunscreen.

PLEASE NOTE

Travel time to Herculaneum is approximately 1½ hours each way by coach. Guests may be required to stand during the brief minibus transfer from the pier.

**MNA-017 CATANIA ON YOUR OWN**

**Date: Oct 15, 2026 Time: 08:31 AM**  
**Duration: 5.00 Hrs Price: \$109.00**

OVERVIEW

Explore captivating Catania independently and concentrate on the attractions that look most interesting to you. After a devastating earthquake in 1693, Catania had to be rebuilt along with seven other cities in southeastern Sicily. The resulting late Baroque architecture and innovative town planning earned Catania a UNESCO World Heritage site designation. You will likely see many of those noteworthy 17th-century buildings while

wandering about on your own. Much of the architecture is dark-gray as it was constructed with tuff, a type of rock that contains volcanic ash from the eruptions of Mt. Etna. Much of Catania Cathedral – which is dedicated to Saint Agatha, the city's patron saint – was reconstructed with that volcanic material. You may also wish to see the 2nd-century Roman amphitheater and the Collegiata Church, another landmark that was restored following the earthquake. If shopping sounds appealing, you will find plenty of designer stores and one-of-a-kind boutiques.

HIGHLIGHTS

- Explore Catania at your own pace with no schedule to follow other than your own.
- Spend hours focusing on the landmarks that sound most appealing to you.
- Ask the escort on the ride over to Catania for recommendations if you wish.
- Appreciate the late Baroque architecture that was built after the 1693 earthquake.

**Date: Oct 15, 2026 Time: 09:00 AM**  
**Duration: 4.25 Hrs Price: \$209.00**

OVERVIEW

Visit a lake where plump, succulent mussels and clams are farmed and view the landmarks in Messina, a city that the Greeks settled in the 7th century BC. Ganzirri Lake offers an ideal brackish environment for the aquaculture of mollusks, and if you are lucky, you will see fishermen collecting them. Their basic technique hasn't changed in centuries. The fishermen, known as cocciulari, still row wooden boats around the lake and use rakes outfitted with nets to pluck the bivalves from the bottom of the lake. You can expect to sample the clams in your lunch of spaghetti alle vongole, a much-loved dish in Sicily. The attention will turn to architecture in Messina. The Duomo is adorned with what may be the world's largest astronomical clock. Nearby stands the Shrine of Christ the King, a somber World War II memorial. Bronze from World War I enemy cannons was melted down for its bells.

**Date: Oct 15, 2026 Time: 10:00 AM**  
**Duration: 5.00 Hrs Price: \$269.00**

**OVERVIEW**

OVERVIEW Gain insight into the foods and wines produced around the inland town of Santa Lucia del Mela while visiting a winery and farm. The wines are fermented in terracotta amphorae, much like it was done thousands of years ago. One of the wines that has been revitalized in this area – a mamertino – was a favorite of Julius Caesar and so beloved that the Roman scholar Pliny described it in his book Natural History. After touring the wine cellar and dining on Sicilian cuisine thoughtfully paired with wines, you will follow a path through the vineyards and olive groves to a nearby farm. Although dozens of traditional cheeses are made in Sicily, this farm produces a rare one that uses donkey milk. The dairy farmer will describe the process and offer a tasting.

**HIGHLIGHTS**

- Tour a winery known for its mamertino, a wine that Julius Caesar adored.
- Walk through the vineyards, tour the cellar and enjoy a wine tasting with lunch.
- Visit a farm that produces an unusual cheese with donkey milk.

**HELPFUL HINTS**

The vineyard and cellar include surfaces with hills, sand and grass. As this excursion involves standing and walking for periods of time of approximately 3 hours, those guests with mobility concerns are cautioned to evaluate their personal level of ability and stamina. **Duration: 6.25 Hrs Price: \$189.00**

OVERVIEW

OVERVIEW Behold the natural beauty of the Neretva River Delta while cruising through its canals and estuaries in a traditional wooden boat known as a lada. The valley is so fertile that it is often called Croatia's California, a reference to the many surrounding farms and orchards. As a result, wildlife thrives, especially birds. You may spot white pelicans, spoonbills, pied avocets and oystercatchers among the many water birds. Each year, ornithologists record species new to the river delta, a confirmation that the Ramsar protection has been a success. Before emptying into the Adriatic Sea, the Neretva River feeds Lake Kut. **Date: Oct 20, 2026 Time: 08:45 AM**  
**Duration: 1.75 Hrs Price: \$119.00**

OVERVIEW

Pause for photos at three overlooks that present extraordinary views of Dubrovnik's medieval Old Town and then spend free time there. Your first stop will be the Franjo Tudman Bridge. Continuing south along the coast, you will next pause at the Bosanka lookout, which offers a revealing view of the walled Old Town. Another perspective of Old Town awaits you at Srdj Hill. Napoleon's soldiers built Fort Imperial there because of the strategic location and view of the sea. There are about 80 steps to reach the hilltop, but it is well worth the effort. **DBV-033 WINE TASTING & BAY CRUISE**

**Date: Oct 20, 2026 Time: 08:45 AM**  
**Duration: 4.75 Hrs Price: \$209.00**

OVERVIEW

Sample a selection of wines aged in a highly unusual way and cruise the bay that separates Croatia's largest peninsula from the mainland. This experience is all about the sea as you will initially discover at the Edivo wine bar in Drace, a village on the Peljesac Peninsula. The wine is aged in glass bottles placed in clay amphoras and then submerged in the Adriatic Sea for nearly two years. The process – known as the Sea Mystery – yields unique wines that have never seen light until poured into your glass. Cruising through the Bay of Mali Ston will add another dimension to your understanding of the local seascape. The water conditions are ideal for the cultivation of oysters, and you may well see these bivalves being farmed. The highlight however is the Peljesac Bridge, a modern engineering marvel that links the Peljesac Peninsula to the Croatian mainland while bypassing Bosnia and Herzegovina's only outlet to the sea.

HIGHLIGHTS

- Enjoy a tasting of Croatian wines aged underwater in the Adriatic Sea.
- Cruise the sheltered Bay of Mali Ston in a wooden boat.
- Behold the Peljesac Bridge, Croatia's most expensive infrastructure project in decades - as you listen to wise words from our expert engineer.

OVERVIEW

Settle in for a spectacularly scenic ride around Zadar in a tuk-tuk, an open-air vehicle that resembles a golf cart. While driving through the city's outskirts, you will be treated to uninterrupted views of one beautiful beach after another. Much of Zadar borders the sea, including its iconic sphinx statue. A wealthy resident built the concrete sculpture in 1918 as a tribute to his wife, who died prematurely. According to legend, a treasure is buried beneath the sphinx, which somewhat emulates the more famous one in Egypt. You will also pause at the Sea Organ and Greeting to the Sun, two other unusual seaside attractions. The former plays music as seawater rushes through underground pipes fitted with whistles. The latter uses solar panels to collect energy that powers an imaginative light show each evening. For a historical understanding of Zadar, you will walk through Old Town, an area settled in the 9th century BC.

abundance of indigenous flora and fauna. Salt pans covered much of this area for centuries, and it wasn't until about 50 years ago that the brackish wetlands became an important habitat for flora and fauna. As you walk through this wonderfully unique ecosystem, a naturalist will describe the transformation of the reserve and how environmentalists prevented it from becoming an industrial zone. Nearly 250 types of birds—more than half the species in the entire country of Slovenia—have been spotted there, including Eurasian reed warblers, black-winged stilts and squacco herons. You can also expect to see a huge variety of colorful butterflies flitting about. Halophytes are among the more intriguing plants found in the wetlands, as they thrive in salty ground. From a distance, these succulents appear to have ice on their leaves, but it is actually dried salt that the plants exude from their glands.

HIGHLIGHTS

- Gain insight into how former salt pans were transformed into a thriving wetland .
- Walk through a now-protected nature reserve with a naturalist guide .
- Observe abundant wildlife that includes more than half the bird species in Slovenia .

**Duration: 5.00 Hrs Price: \$149.00**

Drive around a lake that is a natural phenomenon of sorts, as its water disappears each autumn, leaving the lake dry until the winter rainy season. For an overview of the lake's unusual hydrological system, you will first browse a museum with a scale working model of Lake Cerknica, showing how each year it drains into the porous karst that lies beneath the lake bed. A leisurely walk around the shore will add another dimension to your understanding of this well-known "intermittent lake," as it's known geologically. When full, the lake is the largest in Slovenia. Much of the flora and fauna changes seasonally with the water level. Regardless of when you visit, you can expect to see flowering orchids, medicinal plants and countless birds, all of which the naturalist will describe in fascinating detail. More than half of Europe's bird species have been spotted there at one time or another.
