STM-005 TAIRONAKA INDIAN RESERVE**Date: Jan 18, 2027 Time: 07:30 AM****Duration: 5.25 Hrs Price: \$159.00****OVERVIEW**

Spend the day exploring the Taironaka Indian Reserve, taking in the natural environment, the biodiversity and learning about the Tairona culture.

Departing from the pier, you'll commence a highly scenic 1 hour drive away from the city of Santa Marta through the "Troncal del Caribe". As you travel along this route, you'll see beautiful landscapes and contrasts produced by the area's diverse climate ranges. Upon arrival, access to Taironaka is done via a pleasant 20- minute walk along an ecological path, during which you will start to appreciate the flora and fauna of the region. However, the Taironaka, Ecological Tourism and Archeology site offers that and much more. Here, in this landscape nestled in the foothills of the Sierra Nevada of Santa Marta, you will have the opportunity of walking through what used to be the stone paved city of Tairona. You will see paths, aqueducts, stairs, terraces and much more. You may even see a piece of a Tairona vessel or remains of grinding stones whose wonderful rounded stones were created for a purpose that is still unknown. There were many items that this incredible culture manufactured during the hundreds of years that they dwelled on this mountain; and many of them remain. The Spaniards who came and assaulted the Taironas while looking for gold objects, took the gold, but they left the clay, the stone and what remains of the city today. Due to its climate and fertile soil, the area started off cultivating colorful tropical flowers that are sold to international markets and which can be observed everywhere within the reserve. Today, it has also become a sanctuary for the archeological treasures of the Tairona culture which are more than a thousand years old. The museum here showcases pieces of great value and also enlightens visitors on how the Taironas lived and how they were remarkable goldsmiths, craftsmen, sailors and warriors. Following the guided portion of your tour, you are free to explore further on your own, or perhaps take a swim in the river. There is a restaurant at the Reserve where guests may purchase lunch. After approximately 2 hours, you'll walk with your guide back to your minibus and travel back to the ship.

Duration: 3.50 Hrs Price: \$169.00

OVERVIEW

Take in the highlights of Aruba, ranging from manmade landmarks to attractions that the force of nature has shaped. A brief but panoramic drive along resort-rimmed Eagle Beach will bring you to the California Lighthouse. The island’s oldest lighthouse, it offers unparalleled 360-degree vistas of Aruba’s northwestern tip. The lighthouse isn’t named for the state of California, but rather for a British ship that sank off Aruba in 1891, before a lighthouse was built here. Alto Vista Chapel is another architectural highlight, as it marks the spot where Spanish missionaries are said to have converted the island’s indigenous people into Christians in 1560. Continuing on to Baby Natural Bridge, you will view the remains of a coral bridge that spanned a finger of the sea until the relentless pounding surf caused it to collapse in 2005. The bridge demonstrates the unpredictable force of nature, as do the Casibari Rock formations, a cluster of massive boulders that were created when nearby tectonic plates shifted.

HIGHLIGHTS

- Visit the island’s oldest lighthouse, a soaring beacon that offers stunning vistas.
- See a historical seaside chapel built on the site of the first Catholic church in Aruba.
- Behold the remains of a natural coral bridge that the erosive force of

nature leveled.

- Marvel at the oddly shaped rock formations that shifting tectonic plates created.

OVERVIEW Ride across the island in an open-air Jeep to a natural pool along the sea and a cave adorned with centuries-old pictographs. You will enjoy uninterrupted views of the gorgeous countryside as you travel through Aruba's rugged interior, often on roads only accessible in a 4-wheel-drive vehicle. The seaside pool lies within the Arikok National Park, an environmentally protected wonderland that covers nearly 20% of the island. It will be immensely relaxing to ease into the crystal-clear waters of the secluded pool, which fills a bowl-like depression in the volcanically formed shoreline. Nearby, you will explore Fontein Cave, whose limestone walls are covered with reddish-brown drawings – some floor-to-ceiling – that the indigenous Arawaks created long ago. Anthropologists speculate that the artists may have been under the influence of psychedelics. To experience a weird sensation yourself, dip your feet into the freshwater pool nearby and enjoy a fish pedicure of sorts.

KRA-007 MARINE PARK GLASS BOTTOM BOAT TOUR**Date: Jan 20, 2027 Time: 08:30 AM, 10:00 AM, 11:45 AM****Duration: 1.50 Hrs Price: \$79.00**

OVERVIEW

Discover the extraordinary underwater world of Bonaire's National Marine Park in the most accessible and enriching way possible — from the comfort of a fully shaded glass-bottom boat, gliding effortlessly over some of the Caribbean's most celebrated and carefully protected coral reefs. No swimming or snorkeling required — simply settle into your seat and let the remarkable marine world reveal itself through the large viewing window that runs along the center of the vessel, providing every guest with equally clear and unobstructed views. Your journey takes you to the crystal-clear waters surrounding Klein Bonaire — a completely uninhabited and protected nature reserve at the heart of the Bonaire National Marine Park. The waters here owe their remarkable richness to decades of pioneering environmental legislation. In the 1960s, protections were enacted for sea turtle eggs and nests. In the 1970s, spearfishing was banned and the removal of coral made illegal — making Bonaire one of the first marine protected areas in the Caribbean and creating an underwater ecosystem of extraordinary diversity and beauty. As the boat glides slowly over one breathtaking reef after another, your knowledgeable guide shares fascinating insights into the marine ecosystem and the conservation story that has made Bonaire a benchmark for marine protection worldwide. Graceful sea turtles, stands of elkhorn and staghorn coral and a dazzling spectrum of tropical fish — including grunts, wrasses, goatfish, parrotfish and tangs — may all come into view. A fish identification chart on board helps bring every sighting to life. After approximately 1.5 hours of pure underwater discovery, the boat returns you to the pier — relaxed, informed and thoroughly captivated by the natural wonders of one of the Caribbean's most extraordinary marine environments.

KRA-004 BONAIRE 6X6 ADVENTURE

Date: Jan 20, 2027 Time: 09:30 AM
Duration: 3.00 Hrs Price: \$89.00

OVERVIEW

Travel off-road in a powerful, air-conditioned 6x6 truck to explore Bonaire's remote eastern shore, a land of giant cacti, plentiful wildlife and stunning natural beauty. You'll head out from the pier and drive through Kralendijk. As you get further east, you'll notice the land getting more rugged. Before long, the paved highway will be in the rearview as you enter trackless, arid countryside. This sparsely populated part of the island is both beautiful and rugged. You're usually more likely to encounter wild donkeys, Caribbean parakeets, yellow-shouldered parrots or prehistoric-looking iguanas than humans around here. One exception is when you reach Sorobon Beach, catering to windsurfers who can't resist the waves kicked up by the steady offshore breezes. After a pause, you'll press on to pass one of Bonaire's five lighthouses, then clustered stone huts that once housed slaves who worked in the surrounding salt flats until slavery was brought to an end here in 1863. These saltwater shallows are a known gathering place for Bonaire's flamingos, which use their upside-down beaks to scoop up brine shrimp — the unique diet responsible for their trademark rosy-orange hue. Perhaps they'll be hungry when you're passing through.

HIGHLIGHTS

- Discover the beauty of Bonaire on this 6x6 Adventure.
- You'll head to east coast of the island that offers a more rugged coastline, which you'll discover while traveling off-road.

HELPFUL HINTS

Duration: 5.75 Hrs Price: \$169.00

OVERVIEW

Browse two 18th-century Great Houses, both having survived a slave rebellion unscathed. Perched on a hilltop, the Greenwood Great House is considered the most original of Jamaica's opulent colonial estates because it appears much as it did when constructed. It is handsomely furnished with period pieces and holds the largest private collection of plantation library books on the island. The Georgian-style Rose Hall was built even earlier and was left intact during the slave rebellion of 1831 because it was supposedly haunted by the ghost of former owner Annie Palmer. You will hear stories of her – the notorious White Witch – and how she murdered three husbands and numerous slave lovers when she grew tired of them. Now restored to its former glory as a sugar plantation, Rose Hall is an architectural treasure. A jerk-seasoned lunch at Scotchies restaurant in the shopping mall Main Street Rose Hall will follow. You may also have time to shop.

HIGHLIGHTS

Duration: 5.75 Hrs Price: \$159.00

OVERVIEW

Explore the geological wonders in the Green Grotto Caves, an experience that will give you much to reflect upon over a traditional Jamaican lunch at the casual eatery Scotchies. The mostly coastal drive to the caves will present the north shore's natural beauty in all its glory. The scenery

beneath the earth's surface is just as inspiring as you will discover in the Green Grotto Caves, which was named for the green algae that covers its walls. Over the centuries, the voluminous caves have been home to Arawak Indians, colonial-era Spaniards, runaway slaves and smugglers. The caves have even been a nightclub. The most dramatic geological formations are eerily illuminated and named for their resemblance to figures such as Abraham Lincoln. A jerk-seasoned lunch awaits you at Scotchies Drax Hall, a wonderfully informal restaurant that grills its meats over a fire of sweet-wood rather than pimento wood, which imparts a unique flavor.

HIGHLIGHTS

- View the extraordinary, eerily illuminated geological formations in the Green Grotto Caves.
