**Duration: 3.00 Hrs Price: \$229.00**

OVERVIEW

Discover how Alaska's cold, nutrient-rich waters are ideal for growing oysters and kelp by touring a floating farm and then sampling the sustainable products. On the coastal drive to the Hump Island Oyster Company farm, be sure to watch for humpback whales, seals and sea lions, which frequent these pristine waters. As you tour the family-owned farm, you will see how the oysters are nurtured as they grow from thumbnail size to market size. It is a fascinating process. **Duration: 2.50 Hrs Price: \$105.00**

OVERVIEW

Browse Sitka's finest galleries while watching local artists create imaginative works of art in silver, wood, ceramic and glass. Sitka still zealously supports its artists, many of whom you will see at work in the cultural district. As you meander through the galleries, you will most likely see artists creating magnificent pieces in glass. As you will see in many of the finished works, the inspiration was Sitka's natural beauty.

**ISP-007 HALIBUT FISHING**

**Date: Jul 27, 2023 Time: 07:30 AM**  
**Duration: 3.50 Hrs Price: \$349.00**

**OVERVIEW**

Go fishing for halibut in Icy Strait, where these giant flatfish are voraciously feeding throughout the summer. Meeting at the dock, you will embark your comfortable cabin cruiser and receive a safety orientation before taking the 20-30 minute ride out to the premier fishing area in Icy Strait. These waters are teeming with halibut as they serve as the main migration corridor for halibut traveling from the Pacific to their summer feeding grounds and spawning streams in southeast Alaska. The largest Pacific flatfish, Alaskan halibut are renowned for their mammoth size. The former state record halibut-a 440-pounder whopper-was landed near Hoonah, and catching a 100-pounder in Icy Strait isn't unusual. Imagine the thrill of hooking one of these monster fish and reeling it in from the depths. It's an amazing experience because halibut are longer than most flatfishes with a width one third of their length, so that husky girth produces a lot of resistance. You will spend approximately 2 1/2 hours on the water, fishing with bait that may include herring, salmon and octopus, which is one of the halibut's favorite meals. If you catch one, you'll notice that halibut has smooth scales, a light-colored bottom side and a darker top. The colors are a natural camouflage that mimics the hues of the ocean floor and water. Not only are these waters home to halibut, they are also filled with whales, sea lion, and seals so come prepared with your camera and binoculars. At the conclusion of your fishing time, you will head back to the pier where your tour concludes. Please note: This tour includes very limited walking, although there are steps to negotiate to board the fishing vessel. The tour is not available to wheelchair guests or those with mobility concerns. Persons who are prone to sea sickness should take appropriate

**Duration:** 3.50 Hrs **Price:** \$409.00

OVERVIEW

The Stikine River is the fastest, navigable, free-flowing river remaining in North America. The vast area surrounding the river is home to moose, deer, brown and black bear, beaver and countless other species of wildlife. In his travels on the Stikine River in 1869, famed American naturalist John Muir described the river scenery as “a Yosemite 100 miles long.” After a short safety and tour briefing, you will board a jet boat and quickly be transported into the majestic Stikine-LeConte Wilderness. During the adventure that follows, you will travel across channels bordered by rainforest and through a vast river delta, which is home to bald eagles and a primary stop on the migratory flyway for Pacific birds. You will also have the opportunity to witness Shakes Glacier, iceberg-dotted Shakes Lake and waterfalls thundering from the towering coastal range mountains that serve as a grand finale to this exhilarating wilderness tour.

HIGHLIGHTS

- Cruise the wild Stikine River in the comfort of a heated, covered jet boat.
- Behold the glorious natural beauty of the Stikine-LeConte Wilderness.
- Look for iconic Alaskan wildlife such as moose, bear and bald eagles.

PLEASE NOTE

This tour is not available to guests who utilize a wheelchair and not recommended for guests with mobility concerns. Due to the nature of boating on the Stikine River, which sometimes requires travel in shallow

Therefore, the tour is not suitable for guests with heart or back problems, pregnant women or those who suffer from motion sickness. Children under 16 years of age must be accompanied by an adult parent or guardian. There are no restroom facilities on this tour. **WRG-010 MUSKEG MEADOWS GOLF**

**Date:** Jul 28, 2023 **Time:** 09:30 AM, 10:00 AM, 10:30 AM, 11:00 AM, 11:30 AM, 12:00 PM  
**Duration:** 4.00 Hrs **Price:** \$179.00

OVERVIEW

Play nine holes of inspiring golf on Muskeg Meadows, a course created in the middle of a rain forest on the outskirts of Wrangell. The course sits atop a foundation of byproducts from the once-flourishing timber industry and interpretative signage throughout shows how the land was repurposed in an eco-friendly manner. Conifers line the holes, meandering creeks occasionally cut across the fairways and the greens are ample enough to reward well-struck balls. A large, jutting rock challenges golfers on the signature ninth hole. But perhaps the most unusual aspect of Muskeg Meadows is its “raven rule,” a local regulation that allows you to replace your ball without penalty if a cantankerous raven flies off with it. Other wildlife such as deer and moose are often spotted grazing nearby. Still, it is the backdrop, a pure Alaskan setting of majestic snow-capped mountains, that sets the tone for this most memorable round of golf.

HIGHLIGHTS

- Enjoy a friendly game of golf on a course carved out of a rainforest.
- Take in the grandeur of the wilderness that comes to the very edge of the course.
- Discover how timbered land was repurposed for the nine-hole course.
- Watch for deer and moose grazing in the distance.

HELPFUL HINTS

- Wear casual, weather-appropriate clothing and dress for the possibility of rain.

PLEASE NOTE

This tour includes a moderate amount of walking at times over natural surfaces. It is not available to guests who utilize a wheelchair and not recommended for guests with mobility concerns. Golf clubs, balls and golf carts are provided. Push carts are available for those who prefer to walk. Appropriate golf shoes are mandatory.

**Duration:** 1.75 Hrs **Price:** \$119.00

OVERVIEW

Enjoy a leisurely hike up Mount Dewey, a 400-foot-high mountain that overlooks downtown Wrangell and picturesque Zimovia Strait. From the trailhead in town, you will head up the mountain by following a nature trail with wooden and stone steps that make the ascent easier. Openings in the forest provide sweeping views of the landscape and your cruise ship below. During the climb, the naturalist guide will point out the local flora that may include crowberry, Labrador tea and black spruce. John Muir was the most famous naturalist to climb Mount Dewey. He apparently started a roaring fire at the top of the mountain to keep warm, not realizing that it might frighten the residents. They panicked at first, but soon realized that the inferno was simply a large campfire. In honor of Muir’s visit in 1876, the City of Wrangell named the trail after him and placed a “No Campfires” sign at the top.

**Duration: 5.00 Hrs Price: \$599.00**

OVERVIEW

Watch bears feeding on spawning pink salmon at Anan Creek from the comfort of an observatory at the falls. Following a cruise on a covered, heated boat through the sheltered waters of the Eastern Passage, you will hike about a half-mile along a groomed trail and wooden boardwalk. Visitors can only arrive by boat or floatplane and then hike in, so the remote location tends to be relatively uncrowded, making the wildlife viewing all the more memorable. Pink salmon spawn in Anan Creek in huge numbers, attracting fish-eating animals that include black and brown bears, harbor seals and bald eagles. It is quite the spectacle, especially when the bears attempt to catch the salmon as they jump into the air while swimming upstream. This being one of the area's largest pink salmon runs, the chances of seeing feeding bears is high but not absolute. To enhance the experience, the naturalist guide will interpret the local flora and fauna.

HIGHLIGHTS

- Observe bears in the wild as they catch and devour spawning salmon.
- Look for other fish-loving animals such as harbor seals and bald eagles.
- Gain a greater understanding of the local flora and fauna from a naturalist.
- Enjoy the remote, typically uncrowded forest setting.

The tour is not available to guests who utilize a wheelchair or guests with mobility concerns. Participants should be in good physical condition and have good vision and balance in order to safely navigate the trail. There are some outhouses along the trail and at the observatory; however, there is no restroom on the boat. Food is strictly prohibited at the observatory and along the trail. Minimum age to participate is 12 years old and children under 18 years old must be accompanied by an adult parent or guardian. Wildlife and bear sightings are likely but not guaranteed.

### PLEASE NOTE

While the greatest care has been taken to offer the finest services available, Oceania Cruises will not be held responsible for any event or omission during the time that guests are not on board the ship or its tenders. All arrangements for certain optional off-board activities, including air transportation, hotel accommodations, ground transfers and shore excursions, are made by Oceania Cruises with the suppliers of the services for the convenience of our guests. Each guest agrees not to hold Oceania Cruises, its owners, employees, agents or representatives liable, in the absence of its own negligence, for any loss, injury, expense or damage which results directly or indirectly from any act or omission, whether negligent or otherwise, of any person or firm which provides any goods or services in connection with any optional travel component or any other option that is available for purchase. Arrangements with independent contractors include but are not limited to services, products and transportation provided elsewhere than onboard an Oceania Cruises vessel in connection with tours, whether arranged or organized by tour operators, travel agents or Oceania Cruises. Tours, including hotel accommodations and transportation by any vessel not owned or operated by Oceania Cruises or by air, rail or land, are not under the supervision and control of Oceania Cruises. Notwithstanding that Oceania Cruises, at the guest's option, arranges air transportation, hotel accommodations, group transfers, shore excursions and other services with independent suppliers of the services, it should be understood that Oceania Cruises, being a "for profit entity," earns a fee on the sale of the optional services.

All Oceania Cruises shore excursion fares are per person, are subject to change and are subject to availability. Some tours are capacity controlled and may be withdrawn at any time without prior notice. While Oceania Cruises makes every effort to adhere to the specifics mentioned in each shore excursion description, circumstances may require otherwise. All shore excursion descriptions and information are subject to change without notice at Oceania Cruises' discretion. Oceania Cruises is not responsible or liable for typographical errors, omissions or misprints.
